ABOUT TRANSAMERICA ACCIDENT INSURANCESM

FILLING THE GAPS

Accident insurance helps fill the gaps between what major medical insurance covers and where you'd normally be left with a bill. For example, say you break a bone in a car accident. Your health insurance will cover some of the medical expenses that you'll incur from treatment, but you might still have copays, coinsurance, or high deductibles — not to mention the other bills that add up fast during recovery.

Accident insurance can help with these costs and pay your benefits directly to you. That way you could be less likely to dip into your savings or use a credit card, adding to the peace of mind in an uncertain time.
